Notes for this data summary:

- Data in all tables represent individuals who closed out of VR services in a given fiscal year. They do not represent all individuals served by a state VR agency in that year.
- All tables display data from FYs 2003, 2005, and 2007 to allow for simple trend comparison.
- The tables in this data summary include all individuals for whom American Indian/Native American status was indicated in the RSA 911 data files. Individuals who were not indicated as American Indian/Native American are excluded from these calculations.
